

Item#	SI-131B	Description	80W Temperature Controller	Barcode	
Pages		Catalogue	[]	Date	2015/8/17

 Picture for reference only. Please check with distributor for exact offers. All specifications are subject to change without notice.

Features

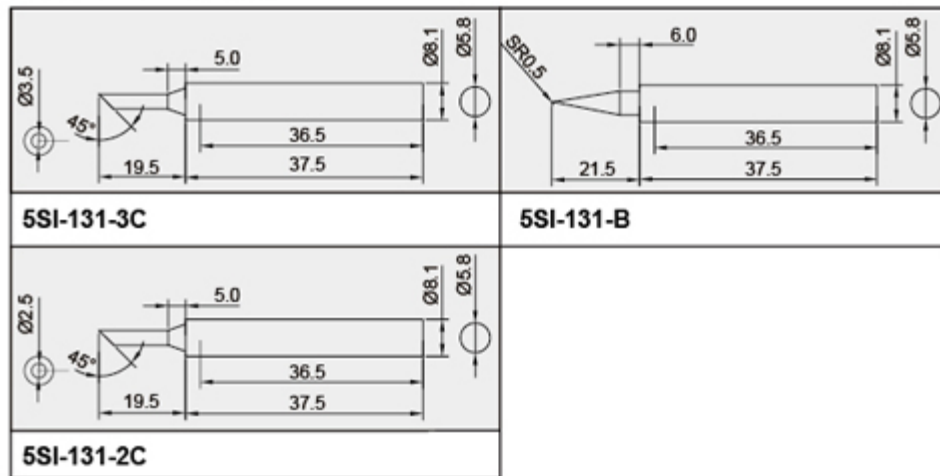

- **Adjustable temperature, 200-450** □
Adjustable electronic closed-loop temperature control from 200-450 □ to meet different applications
- **Stainless Steel barrel with ventilation hole**
- **K type temperature control sensor**
Built in sensor in heaterensures temperature control accurately and consistent heat.
- **Ceramic heating element**
Made with an efficient ceramic heating element assuring fast thermal recovery, and requires less energy for efficient heating

- **Adjustable temperature, 200-450°C**
- **Temperature control sensor**
- **Ceramic heating element**

Replacement Tip:

Spec.

Model No.	SI-121B
Power Consumption $\square \pm 10\% \square$	80W
Temperature range ($\pm 40 \square \square$)	200~450 \square
Input voltage (V)	AC220-240V
Heating element	ceramic
Standard Plug	Plug: B type  \square Power code: 1.2M
OAL(mm)	240

Individual Packing

- Blister Card
